This is the Electricity line of the bill. It shows what price plan you are on and what you are paying for the electricity that you use. This bill shows Tiered pricing.

As a Tiered pricing customer, your consumption is broken down to show how much you use at the lower Tier price and how much you use at the higher Tier price. The 700 kWh of consumption here is intended to illustrate the amount of electricity used in a monthly billing period by a typical residential customer. The amount of electricity you use in a month may be different.

This is the meter reading period, also known as the billing period. Your bill covers all the electricity charges you have to pay for in this period. A billing period is generally 30 days, but that can vary. Any switch in price plans can only become effective at the start of a new billing period.

Meter Reading Period

4

September 09, 2020 to October 08, 2020

Number of Days

30

Total Ontario support: \$00. To learn more about the Province's electricity support programs, visit [Ontario.ca/yourelectricitybill](https://ontario.ca/yourelectricitybill).

5 Your bill must provide information about your historical usage. This is also important when assessing your price plan options.
